[H.R. 2080, to reinstate and extend the deadline for commencement of construction of a hydroelectric project involving Clark Canyon Dam](#)

FLOOR SITUATION

On Monday, March 14, 2016, the House will consider [H.R. 2080](#), to reinstate and extend the deadline for commencement of construction of a hydroelectric project involving Clark Canyon Dam, under suspension of the rules. H.R. 2080 was introduced on April 28, 2015 by Rep. Ryan Zinke (R-MT) and was referred to the Committee on Energy and Commerce, which ordered the bill reported by unanimous consent on February 25, 2016.

SUMMARY

H.R. 2080 directs the Federal Energy Regulatory Commission, upon the request of the licensee for the project number 12429 (Clark Canyon Dam, Montana), to reinstate the license and extend for three years the time period during which the licensee is required to commence the construction of the project.

BACKGROUND

The Federal Energy Regulatory Commission (FERC) is an independent agency that regulates the interstate transmission of electricity, natural gas, and oil. FERC also reviews proposals to build liquefied natural gas terminals and interstate natural gas pipelines as well as licensing hydropower projects.¹

Section 13 of the Federal Power Act (16 U.S.C. 806) requires a hydropower licensee to begin construction on a licensed project within two years of obtaining the license. FERC may extend this timeline once for an additional two-year period. The license expires and is terminated if the licensee is unable to begin construction by the extended deadline.²

¹ See the Federal Energy Regulatory Commission's website, "[What FERC Does](#)".

² See the Committee on Energy and Commerce's [background memo](#) at 7-8.

According to the bill sponsor, “Due to the layers of red tape in Washington, D.C., little progress has been made. Extending the federal license for [Clark Canyon Dam] will allow important upgrades to our infrastructure while helping tap into Montana’s extensive hydropower potential to provide more affordable energy to Montana families and small businesses.”³

COST

A Congressional Budget Office (CBO) cost estimate is currently not available.
